## Integration Pack for Citrix XenServer

### Automation for VM Provisioning

The Kelverion Integration Pack for Citrix XenServer is a compliant integration for Microsoft System Center 2012 R2 Orchestrator or System Center 2016 Orchestrator.

The Integration Pack supports Citrix XenServer 5.5 or 6.2.

It enables pre-defined integration and automation capabilities associated with provisioning and managing Citrix XenServer Virtual Machines and XenServer Hosts.

The Integration Pack delivers a wide variety of re-usable Activities to automate IT-Functions such as

#### Automated Provisioning

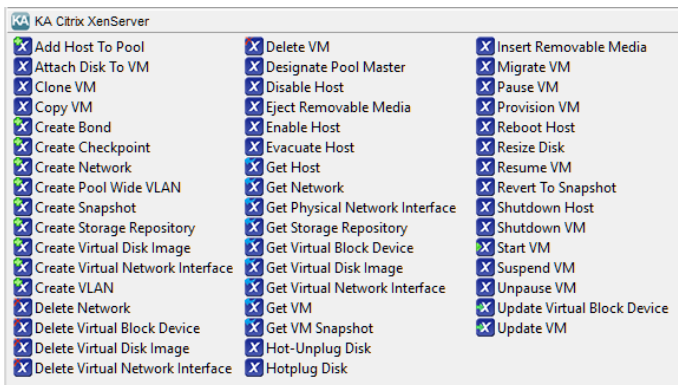

Automate the creation of resources in XenServer directly from Service Requests or automated resource scaling. Retire resources free up resources and reclaim licenses for re-use.

#### Management of the XenServer Estate

Automate management of XenServer resources to support business demands and remove manual effort.
