## Kelverion Integration Pack for Azure DevOps

### Automation of Bug Tracking in Azure DevOps

The Kelverion Integration Pack for Microsoft Azure DevOps is a compliant integration for Microsoft System Center Orchestrator.

The Integration Pack supports:  
Azure DevOps Server 2020 and 2022  
Azure DevOps Online

It provides pre-defined integration and automation capabilities associated with Issue tracking including monitoring, creating and updating bugs.

The Integration Pack delivers a range of re-usable objects to automate IT-Functions such as:

#### Automated Application Fault Reporting

Automatically raise Application faults detected by the Event Management Tools straight into the Developers Software Bug Tracking System.

#### Service Desk to Development Issue Tracking Synchronization

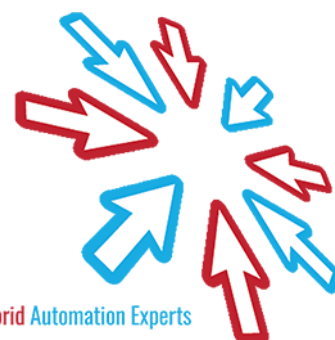

Report problems with Applications in the companywide Service Desk solution. Have this raise an Issue in the Development Project tracker system. Then keep the Service Desk updated on progress of development team fix automatically.
