

Kelverion

Integration Pack for Citrix XenDesktop

Automation for VDI Provisioning

The Kelverion Integration Pack for Citrix XenDesktop is a compliant integration for Microsoft System Center 2012 R2 Orchestrator or System Center 2016 Orchestrator.

The Integration Pack supports Citrix XenDesktop 7 or 7.6.

It enables pre-defined integration and automation capabilities associated with provisioning and managing Citrix XenDesktop Virtual Desktop instances, including a powerful 'Run PowerShell Script' activity which runs all available XenDesktop PowerShell actions.

The Integration Pack delivers a range of re-usable activities to automate IT-Functions such as:

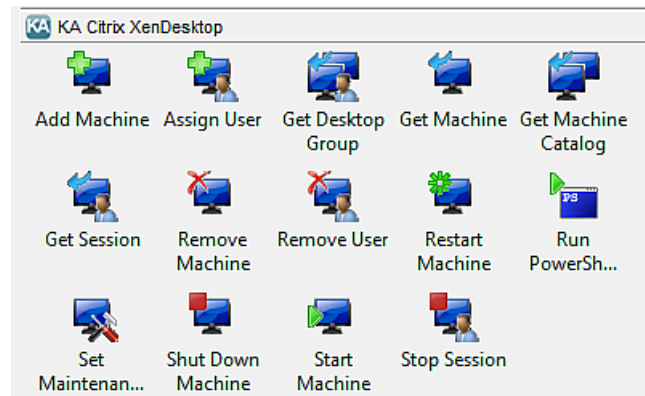

Automated Provisioning

Automate the creation of VDI resources in XenDesktop directly from Service Requests or automated resource scaling. De-allocate VDI to reclaim assets and licenses for re-use.

Management of XenDesktop Environment

Automate management of XenDesktop resources, provide Self Service reset of locked VDI Sessions to support business demands and remove manual effort.

IP FOR CITRIX XENDESKTOP ACTIVITIES

Kelverion are a Microsoft System Center and Cloud Partner who offer Integration Packs and Tools to enhance System Center Orchestrator and Azure Automation and deliver System Center implementation services.
