

Kelverion

Integration Pack for BMC BEM, ProactiveNet and TrueSight

Automation for BMC Event Manager (BEM), ProactiveNet and TrueSight

The Kelverion Integration Pack for BMC Event Manager is a compliant integration for Microsoft System Center 2012 Orchestrator or System Center 2016 Orchestrator.

It supports BMC BEM versions 7.4, ProactiveNet 8.6 to 9.6 and TrueSight Infrastructure Management 10.0.500 (event management only).

This Integration Pack provides pre-defined integration and automation capabilities associated with BEM, ProactiveNet and TrueSight activities, including monitoring, creating and updating events.

The Integration Pack delivers a range of re-usable objects to automate IT-Functions such as:

Automated Diagnostic

Automate the monitoring of the event management system for new events and then conduct first level diagnostics

Manager of Managers

Consolidate disparate event management streams into a single event management tool to provide a single pane of glass view.

IP FOR BMC BEM & PROACTIVENET ACTIVITIES

Create Event	Create a new Event in BMC BEM, Proactive Net or TrueSight
Get Event	Get the details of Events based on
Update Event	Updates the details of an Event
Set Event Status	Set the status of an Event
Monitor Event	Intermittently polls for events meeting specific filter conditions that have been created or updates and returns the resulting Events as Published Data

Kelverion are a Microsoft System Center and Cloud Partner who offer Integration Packs and Tools to enhance System Center Orchestrator and Azure Automation and deliver System Center implementation services.
