Kelverion

Integration Pack for CA Spectrum

Automation for CA Spectrum

The Kelverion Integration Pack for CA Spectrum is a compliant integration for Microsoft System Center 2012 R2 Orchestrator or System Center 2016 Orchestrator.
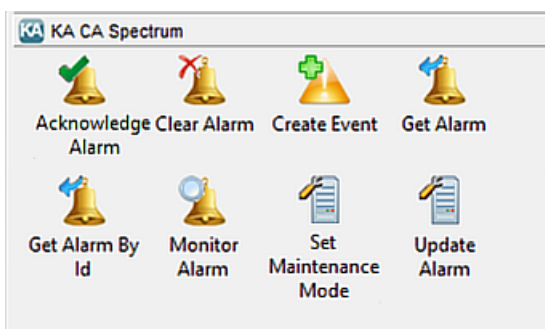

The Integration Pack supports CA Spectrum 10.1.

It provides pre-defined integration and automation capabilities associated with CA Spectrum including monitoring, creating and updating alarms and events.

The Integration Pack delivers a range of re-usable objects to automate IT-Functions such as:

Automated Diagnostics - Automate the monitoring of the event management system for new events and then conduct first level diagnostics

Manager of Managers – consolidate disparate event management streams into a single event management tool to provide a single pane of glass view.

IP FOR CA SPECTRUM ACTIVITIES

Acknowledge Alarm	Acknowledge an Alarm in CA Spectrum
Clear Alarm	Clear an Alarm in CA Spectrum
Create Event	Create an Event in CA Spectrum
Get Alarm	Retrieve an Alarm according to the defined filter criteria
Get Alarm by Id	Retrieve an Alarm by Id
