## Integration Pack for Cisco Prime

### Automation for Cisco Prime

The Kelverion Integration Pack for Cisco Prime is a compliant integration for Microsoft System Center 2012 R2 Orchestrator or System Center 2016 Orchestrator.

The Integration Pack supports Cisco Prime versions 2.2, 3.1, 3.2, 3.3 and 3.4 .

It provides pre-defined integration and automation capabilities associated with Alarm and management functionality in Cisco Prime.

The Integration Pack delivers a range of re-usable objects to automate IT-Functions such as:

#### Automated Diagnostic

Automate the monitoring of the event management system for new events and then conduct first level diagnostics

#### Manager of Managers

Consolidate disparate event management streams into a single event management tool to provide a single pane of glass view.

### IP FOR CISCO PRIME ACTIVITIES
